Bottom Falls Out of National Cordage, Causing a Panic in Wall Street.

Several Old Brokers Forced to the Wall by the Heavy Declines -- At Indianapolis There Is a Growing Demand for Grain.

THE BOND MARKET,

Railways and Others Weak, with Sales Amounting to \$1,616,000. At New York, yesterday, money on call was irregular, ranging from 6 to 20 per cent. the last loan being made at 10, clos-

ing offered at 10. Prime mercantile paper, 6@8 per cent. Sterling exchange was very weak, with actual business in bankers' bills at \$4.84% @4.85 4 for sixty days, and \$4.87% @4.884 for demand.

Wall street was startled soon after the opening, yesterday, by thefailure of Henry Allen & Co., a house which, because of its ramifications in Chicago and other Western cities, has commanded a large patronage and exerted important influence on 'Change. Almost simultaneously with this announcement came the failure of B. L. Smythe & Co., and later the suspension of Schuyler Walden was made known from the rostrum of the exchange. All three concerns owe their misfortunes to the remarkable decline in National Cordage stocks, of which they were heavily long for customers who failed to respond to the calls for additional margins. Throughout the day there were rumors that other failures were impending, and brokers and speculators were kept in a state of trepidation and excitement by the fear of further calamities. Liquidations were on a wholesale scale and intense excitement prevailed as various firms sold out their customers and a perfect avalanche of stocks came on the market. Thedrop in prices was unusual, even for times of panic, and denoted the serious straits in which speculators find themselves. The fact that London and Paris bought heavily and that investors here with ample means also took stocks freely, failed to stem the downward current. Just previous to the close there was a particularly bad break in General Electric, Cordage, Sugar and Manhattan, and the manuer in which these stocks were thrown overboard gave rise to rumors that other firms would suspend to-morrow. Shrewd investors continued to buy and the belief obtains that the panic is approach-

ing the culminating point. The trading reached 741,972 shares, the largest total for a very long time. Over 122,000 of unlisted stocks changed hands. National Cordage figured for 132,810; Sugar, 96,070; St. Paul, 62 500; Chicago Gas, 44,534; Burlington & Quincy, 48,700, and Atchison for 27,774 shares. The declines were 184 in National Cordage, and 18 in the preferred; 7% in Sugar, and 9% preferred: 5% in Cleveland, Cincinnati, Chicago & St. Louis; 34 in Burlington & Quincy; 34 in Evansville & Terre Haute; 34 in Pullman Palace Car; b in Richmond Terminal preferred. At the close National Cordage preferred was 2 above the lowest, and the remainder of the list showed a rally of 4 to 1 per cent. The market closed feverish and unsettled. The sudden decline in National Cordage stock is partly attributed to discrimination by the banks against Cordage paper, and this, together with the recent additional issue of \$2,500,000 of additional stock, has had the effect of forcing prices down. The additional stock was issued. it is said, in order to liquidate a lot of outstanding paper of the trust.

Railway bonds and miscellaneous bonds were very weak. The sales were \$1,616,000. Chicago and Erie firsts dropped 3, to 95 and 97; Richmond Terminal Trust fives, 412, to 84; and Wabash seconds, 2, to 74. Reading issues were heavy. Government bonds were steady and State bonds were dull. Closing quotations were: Four per cent. reg.112 Louis. & Nash.... 7078

In prices there were few changes. Dry goods carry an easy tone. Manufacturers are not overstocked nor slashing prices, but they are offering goods low, consequently wholesale merchants are shading prices some to effect large sales. Sugars are in strong position, and coffees barely steady. In the produce line the tendency is toward a let-

CHICAGO MARKETS STEADY

Financial Troubles in Wall Street · Caused Western Traders to Go Slow.

While the News Was Bullish, Prices Remained Steady, and Values Were Not Advanced as They Ordinarily Would Have Been.

TRADING AT CHICAGO.

Wheat, Corn and Oats Made Small Gains, While Pork Advanced 30c. CHICAGO, May 4.-Operators in wheat on the board to-day were inclined to be conservative in view of the panicky condition of affairs in Wall street. The consequence was that prices remained rather steady, and values were not as much advanced as the bullish nature of the situation would have warranted under ordinary circumstances. The news from abroad was unpromising for the crops there. Russia was praying for better weather and France was reported still suffering from the unbroken drought. The weather in this country continued to be bad for the winter wheat and unfavorable for seeding in the Northwest. The Cincinnati Price Current gave confirmation to the numerous private reports which have been coming to hand

the retrograding condition of

winter wheat. The market opened

unchanged and exhibited a besitating tone for a time, then became firm and with very slight reactions, advanced %c. Meantime reports of the tumbling of stock values and the failures in Wall street began to be felt, and when Walker & Co. and other houses sold out for account of Henry Allen & Co., the broken New York brokers, a line of 1,000,000 bushels or more of wheat, there was a reaction of 4c, though the offerings were quite readily absorbed and the market turned strong again as soon as the pressure was removed. The recovery was assisted by firmer and higher closing cables, both from the United Kingdom and the continent, the strength being held to the close. July opened unchanged at 741/20, advanced to 75 sc, reacted to about the opening figures, advanced again and closed steady at 74%c, a gain for the day of %c. strong. May, which closed yesterday at 422c. and July, which closed at 444c. opened at 42%c and 44%c, respectively. May worked upward gradually until it brought 48 sc and July rose to 44 sc.
The weather was generally unfavorable for planting, and receipts were light. The early buying on existing legitimate conditions was offset in a great measure by selling out of about 200,000 bn by Walker & Co. for H. Allen & Co., and also selling for many other New York houses whose customers were in Leed of what money stock interests. The stuff was taken withont any considerable reaction, and the market closed with May only 'sc below the

Oats were active and strong again, principally because of the heavy shipping of cash oats and a very good demand. Shorts were buying freely. May closed 420 from the best figure of the day, with a gain of fully 1c compared with yesterday's close. July gained %c, closing 4c below the top. The provision market was firm, although a decline of from 5e to 10e was reported for hogs at the yards. The offerings were light and it took only a moderate amount of buying by one or two of the leaders to bring the local scalping crowd around to the same side of the market. Wright bid for and took some September pork and brokers for Cudahy were good buyers of ribs. The lower hog market caused opening prices to show some decline from yesterday's closing quotations, but the first trades were at the lowest prices of the day. September pork closed 5e from the highest and shows a gain, compared with yesterday's last fig-nres, of 20c. September lard is .10c up, and September ribs .174c. Estimated receipts for to-morrow are:

top, with a gain of 'so compared with yes-

was further depressed by bad weather and developments of a financial character, but everything is in good shape here. There is no need of any active trade this month, goods being well sold up and June being early enough for transactions in cottons for the fall trade. Other fabrics have already had good sale for future delivery. There is, however, a fair demand from many quarters, and an urgent call for the delivery of goods due, disclosing the many needs of buyers. The feeling in the market as to values of cotton goods is not at all affected by the state of the financial market. The demand is expected to be equal to the supply. There were no changes to-day.
